

Claims

[c1] What is claimed is:

1. The system and method for automated communication between websites and wireless communications devices, wherein said means for <purpose> comprises a carrier gateway website database.

[c2] 2. The system and method for automated communication between websites and wireless communications devices in accordance with claim 1, wherein said means for communication comprises a wireless device.

[c3] 3. A system and method for automated communication between websites and wireless communications devices for websites and website operators who wish to instantly communicate with their members and or website visitors.

Comprising:

a SMS system rigidly embedded to a Website;

a carrier gateway website database, rigidly linked to said SMS System; and

a wireless device remotely connected to said Carrier Gateway URL Database.

[c4] 4. A system and method in accordance to Claim 3,

wherein said system is used for a classified ads website.

- [c5] 5. A system and method in accordance to Claim 3,
wherein said system is used for an auction website.
- [c6] 6. A system and method in accordance to Claim 3,
wherein said system is used for a dating/matchmaking
website.
